

Biennial Review of Independent Reviewers

Tab 5

Background:

TCDD solicits, on an ongoing basis, qualified individuals who can serve on the independent review panels that evaluate proposals received in response to Requests for Proposals. In order to maintain a large enough pool of potential reviewers, a database of approved individuals is kept. The Executive Committee biennially reviews and approves individuals to be included in the review pool. A list of names and home towns has been provided in binder materials, along with the areas of emphasis in which each reviewer has expertise. Planning Coordinator Joanna Cordry will also have at the meeting a list of summary qualifications for reviewers who have provided them to us. Due to its length (44 pages), it is not included in the binder.

Additionally, Joanna will review a draft format to provide the Committee with a measure of the diversity of the review panel in terms of geographic region, ethnicity, and age.
